New York, June 26.—Developments of primary importance in today's dull but strong stock market included the long expected price advances in certain finished articles of steel and iron by several of the leading independent manufacturers and another \$2,000,000 gold export to Paris.

Interest in the action of the steel concerns was based largely upon the fact that the higher prices are said to be justified by trade conditions. Whether the United States Corporation intends to follow the lead of its aggressive competitors was not disclosed.

Gains of a point were registered by many active issues in the early dealings, while some specialties moved in a sensational manner, with a new high record for American Tobacco. Later the electrical issues and certain sensitive retailers, such as Louisville and Nashville and Norfolk, and Western, were taken up, with further improvement in other groups, under the lead of steel, which strengthened the entire list and produced a moderately buoyant close.

Norfolk and Western convertible fours were the features of the bond department with a two-point gain. Total railway par value, aggregated \$2,630,000. United States government bonds were unchanged on call.

New York, June 26.—Money on call steady, 1 1/2 to 2 1/2; ruling rate, 2 1/2. Time loans steady, sixty days, 3 1/2 to 4 1/2; ninety days, 4 1/2 to 5 1/2; three months, 5 1/2 to 6 1/2; four percent mercantile paper, 4 to 4 1/2 per cent. Sterling exchange firm, \$4.5175 for sixty-day bills, \$4.5720 for demand.
